

## THE INTEGRATION BY THE RIVALRY

The party using elements of the school of the survival and elements of the instruction of special individuals. The whole will be driven and coordinated by instructors of the individual antiterrorist. During occupations to use we will be pyrotechnical resources for the elevation of the realism of the instruction.

With the prevailing element during occupations has however to be the integration and big times of all participants, because the convention to remind will be the rather humoristic instruction of commandoes, not to forget however about aspects from the hard school of the survival.

Participants will become partite on assignment teams. Every team receives the map with noted points of the realization of assignments {exercises} and with the order of their exercise. The order is so settled that groups at the same time execute other assignments. Every group must individually on the ground maps find the place of performance of following assignments. In the moment, when some group will reach to the assignment before it will become executed by other group - it must wait on her own small railway. With the main criterion, on the ground which brought to light becoming {remaining} the victorious group is the number of points during the assignment. The time of the exercise of assignments is the additional criterion.

The assignment **1**:

The conquest of the rope- bridge.

Circumstances **of the realization** of the assignment :

The assignment consists in the penetration of the all team inside out of the ravine after the rope- bridge. Every participant who will conquer the hindrance conquers for the team 10 points. For every 10 minutes of the appointed offence 30 minutes of the time the team is become by punished a collection 10 points.

Membership groups can into the any manner help to their own friends in the realization of the assignment { on condition maintenances of requirements of the safety of given by the instructor.

The assignment **2**:

The conquest of the cobweb hung between trees.

Circumstances **of the realization** of the assignment :

Every person must force his way by one from little eyes of the cobweb, whereat the little eye which became already put-upon by one from participants not perhaps to become put-upon again. Overmasteringly little eyes of the cobweb participants cannot with no body part touch forming thin lines the little eye. Membership groups can into the any manner help to their own friends in the realization of the assignment on condition maintenances of requirements of the safety of given by the instructor.

The assignment **3**:

The conquest of the mine field.

Circumstances **of the realization** of the assignment :

The interior of the appointed area by the tape to the state the mine field on which one cannot touch with no body part. The group receives several instruments which situated on earth determine the safe area, whereby one can freely move. The person which will touch with no matter which part of bodies of the area of the mine field outside the protective zone of the bag becomes eliminated from the competition and deprives the group 10 points. An assignment of the group is the penetration by will eat mine- at as least own losses. To a maximum the group can conquer in this competition 100 points.

The assignment **4**:

The entry after the ladder „speleo”.

Circumstances **of the realization** of the assignment:

Participants must clamber any {facultative} with the technics on the wobbling rope-ladder. For every degree of the ladder which competitor will manage will touch the leg conquers for the team the one.

The assignment **5**:

Shooting- origami. Occupations with the authentic short used weapons by special individuals worldwide.

Circumstances **of the realization exercise**:

One from persons appointed by the group becomes initiated by the instructor into arcana of the construction of used weapons during occupations. The then this person becomes isolated from the rest of the group. The group gets from the instructor spread in honour the weapons and the short-wave transmitter, by means which she can unite with his own expert. An assignment of the possessory group the second copy of such herself weapons is the composition of the pistol to have at command of the attention of the expert given by the short-wave transmitter.
